### SOFT SKILLS

Problem Solving

Adaptability

Creativity

Attention to detail

### PROFILE

As a web developer, I bring a strong foundation in front-end development with **2+ years** of project experience. I am dedicated to refining my abilities in designing visually appealing and user-friendly websites, while staying abreast of the latest advancements in web technologies. With a passion for collaboration and a drive to tackle challenging projects, I strive to deliver impactful web solutions by leveraging my adaptability and analytical problem-solving capabilities.

### WORK EXPERIENCE

#### Flutter Developer Intern

Tradexa Technologies pvt.limited.

Jan 2022-July 2022

- Developed mobile apps from scratch using **Flutter**, ensuring high-quality code and adherence to best practices in code structure, readability, and maintainability.
- Successfully released multiple apps on both the **Play Store** and **App Store**, effectively managing the entire release process, including app submission, version control, and metadata management.
- Implemented performance optimization techniques to enhance app speed, responsiveness, and overall user experience, resulting in improved user satisfaction and increased app usage.
- Collaborated closely with team members and stakeholders, actively participating in requirement gathering, feature planning, and design discussions to ensure the successful implementation of desired app features and functionality.
- Maintained and provided ongoing support for previously released apps on the Play Store, including bug fixes, compatibility updates, and addressing user feedback to ensure smooth app operation and user satisfaction.
- Conducted regular testing and quality assurance activities, including functional testing, user acceptance testing, and compatibility testing across various devices and **OS versions**, to identify and resolve any issues, ensuring app performance and reliability.

### PROJECTS

#### PORTFOLIO

[See more](#)

- A collection of my innovative web and mobile app development projects demonstrating my skills in creating visually captivating and user-friendly experiences.

#### Imaginext

[See more](#)

- A captivating E-commerce app developed with **Flutter** during my time at Tradexa Technologies. Offering seamless shopping experiences and a user-friendly interface for an enhanced customer journey.

#### Gericht Restaurant App

[See more](#)

- An engaging web introduction for a restaurant, showcasing its unique ambiance and captivating experience. Crafted with **React**, this responsive landing page provides an immersive journey for visitors.

#### 3DvT

[See more](#)

- A **3D virtualization** app designed to provide immersive experiences. Explore virtual spaces
