PRASAD HADBE

Frontend Developer

Pune, MH | +91 96233 70313 | Prasadahadbe313@gmail.com | *Portfolio*

PROFILE SUMMARY:

As a software developer with 2+ years of professional and project experience in front-end development, I bring a strong foundation in designing visually appealing and user-friendly applications. I'm passionate about keeping up with the ever-evolving world of front-end technologies. I love to adapt, get creative, and use my analytical problem-solving skills to craft impactful web and mobile solutions.

SKILLS:

- **Languages**: Dart, JavaScript, Python, HTML
- **Databases**: MySQL
- **Frameworks**: React, Flutter
- **Dev-ops**: Git

WORK EXPERIENCE:

Quantime World Pvt ltd

Flutter Developer | 15 August, 2022 - 5 September 2023
- Maintained a mobile app for pharmacists and technicians, improving inventory management, order processing, and prescription handling. The app offered order tracking, patient notifications, and reminders.
- Created a Flutter-based web dashboard that provides pharmacy managers with real-time insights into their inventory levels, order status, and prescription fulfillment rates.

Tradexa Technologies pvt.limited

Junior Flutter Developer | 10 January, 2022 - 10 July, 2022
- Developed Flutter mobile apps from scratch, emphasizing high-quality code and best practices for structure and maintainability.
- Successfully launched apps on both Play Store and App Store, managing the entire release process, including submission, version control, and metadata.

RELEVANT PROJECTS:

IMAGINEXT   *See more*

Flutter Developer at Tradexa Technologies | 12 January, 2022 - 01 May, 2022
- Built an e-commerce app to showcase the photography products of IMAGINEXT.

3DvT   *See more*

B.Tech Final Year project | 01 January, 2022 - 01 March, 2022
- An immersive 3D virtualization app designed to explore captivating virtual spaces.

PORTFOLIO   *See more*

Personal Portfolio
- A collection of my innovative web and mobile app development projects.

EDUCATION:

2018 - 2022 | VISHWAKARMA UNIVERSITY

Bachelor of Technology - Software Engineering
